By a roll call vote, voting Yes: Commissioners: Abbott, Anderson, Olvany, Pellaton, Shelly, Wolfe; voting No: None. Absent: Foster; **motion carried.**

VI. Executive Director's Report

Director Wilson reported on the following topics:

- The next storm water input session will be held April 24 at Hibbard Park, followed by two sessions for Thornwood Park; May 13 and May 22.

- Approximately ten residents attended the input session at Community Playfields and offered their opinions on how they would like the park to look after the project. The proposed location of the storage tank was marked to provide a better visual for attendees.
- The Board will be asked to consider two bids recommended by the Parks & Recreation Committee; one for camp bikes and one for staff and participant uniforms.
- The Real Estate Committee is recommending approval of a resolution from Northern Suburban Special Recreation Association.
- Under New Business is an agreement to purchase equipment for the golf course.

VII. Committee Reports

A. Lakefront Committee:

Commissioner Pellaton reported on the following topics:

- The Lakefront Committee met April 1
- Several visitors were in attendance
 - Resident expressed her dissatisfaction with allowing non-residents access to storage on the sailing beach, since she has been on the waitlist for many years
 - Roni Crystal spoke on behalf of the other resident
 - Her name eventually has come up and now has a spot
- A construction update was provided
 - The project is still on schedule and on budget
 - Don't expect to use entire contingency budget
 - Completion of the concession area is a priority
 - Small landscape plantings will be done last
- Go Green Wilmette has requested that the new concessionaire use recyclable containers
- Two proposals were received from potential concessionaires
 - Staff was directed to negotiate with Shark Shack to increase the lease dollar amount, and move to Organic Life if no agreement is made with Shark Shack
- Discussed legal options about signage at the lakefront; residents don't understand their rights for walking on waterfront property. The Committee concurred to wait on signage until the State of Illinois offers more clarification on their policy.
- Rentals in March 2019 were half of what they were in 2018
- Seasonal staff hiring is complete

Commissioner Wolfe asked if the residency policy will be addressed and Commissioner Pellaton responded that it might be worth discussing next year.

VIII. Unfinished Business

A. Storm Water Project

Commissioner Wolfe opened the floor to receive comments from other Board members.

Commissioner Pellaton commented that a tree survey for Community Playfields would be helpful and he has not seen one yet.

Commissioner Olvany commented that all this information needs to be transitioned to the new Board, as they will be the ones making the decisions.

Commissioner Shelly commented that the Board really has not received input on what the community wants to see at the parks after the tanks are installed.

Commissioner Abbott added that the general consensus has been to maintain green space at Community Playfields, but other than that, he has not received input on other amenities.

Commissioner Pellaton added that he has had conversations with members of the school districts and they have state they are not interested in a track District 39 is not interested in pursuing it.

Commissioner Anderson commented that the Board needs to discuss the trees at Community Playfields, before moving forward. Director Wilson added that he would speak with the Village.

Commissioner Wolfe commented that the #1 improvement should be to address better drainage at all parks so the parks are more usable more days of the year. She added that the board would continue to receive ideas for park improvements.

IX. New Business

A. Resolution 2019-R-2 for Lease-Purchase Agreement

This item was discussed and approved as part of the Golf Committee report.

B. Other

Commissioner Abbott requested again a written report and update on the financials of the Lakefront project.

X. Adjournment

III. Recognition of Visitors

President Wolfe addressed the audience and asked if anyone was interested in addressing the Board. She explained that the Board is looking for comments and input on the project at Hibbard Park, and visitors can address the other locations during the regular board meeting.

The Attendance Sheet will become part of the permanent record.

Dennis Roberts, 720 LaCrosse Ave, Wilmette – commented that he attended the last meeting and it is consoling that the park district is addressing this issue and advocates for using Hibbard Park. He added that his family has undertaken many projects and upgrades to protect their home, but flooding is still an issue and he would like some prevention.

Director Wilson introduced Darren Olson, an engineer with Christopher B. Burke Engineering, LTD, and Ed xxxx from Woodhouse Tinucci Architects.

Mr. Olson explained that 10 acre feet of underground storage is planned for Hibbard Park, and after discussions with park district staff he became aware that the park district would like to preserve future building opportunities at this site.

Mr. Ed described the space planning exercise with staff to develop conceptual plans for future expansion. Slides were presented showing three conceptual plans

and their locations, based on the results of the exercise.

Mr. Olson reviewed the options presented, stating additional space would not be needed and the proposed tank provides the underground storage needed. He noted that a tree survey completed last month suggested that approximately 40 trees in that area would need to be removed. He added there is an opportunity for replacement around the perimeter of the site, and drainage improvements will be part of the plan.

Commissioner Abbott emphasized that the space planning exercise was done with the idea of preserving developmental rights of this park.

Bob Davis, 227 Kilpatrick, Wilmette – expressed his opposition to any expansion of the building, stating it will cause more flooding.

Ben Tolsky, 339 Lamon Ave., Wilmette - commented that the park would be lost with the future plans and questioned where his kids will play during this project, as it is the only park his family can walk to. He suggested using the parking lot for storage, and stated it is foolish to remove all the trees when there are other options.

Karleen McAllester, 323 Wilshire Dr. E, Wilmette – asked how the 10-acre feet was determined. Mr. Olson replied it was determined as part of the original flood assessment.

Ms. McAllester suggested that future structures will cause more flooding or reduce flood protection, and some families may no longer be able to obtain insurance.

Raquel Klibanoff, 428 Wilshire Dr. E, Wilmette – commented this plan would be good for flooding and sports and is glad the park district is looking at long term planning. She asked the park district not to compromise the effectiveness of any of the solutions, stressing a lot of input has been received and people are desperate.

Joel Kurzman, 2615 Greenleaf Ave., Wilmette – stated he is advocating for his former neighbors near the Recreation Center who have spent a lot of money on flood protection and still get water. He added he respects and appreciates the work of the park district.

IV. Discussion

Commissioner Pellaton reiterated no buildings are being contemplated at this time, and the slides previously shown depict two scenarios overlaying one another. He added the Village has not said we need to contemplate additional storage, but if they do there would need to be another conversation.

Commissioner Abbott commented that the plan presented tonight does a good job of maintaining our developer rights and possibilities, but wonders what changes could be made to save some trees.

Director Wilson replied that if saving trees becomes a goal of this project then the plan would need to be redone.

President Wolfe closed the discussion stating the Board hears everyone's concerns regarding the aesthetics of the park and is trying to balance both sides, realizing that storm water management is a critical factor.

Director Wilson reminded the audience the next input session will be held at Hibbard Park on April 24 at 6:30 p.m.

Roni Crystal, 250 Vista Ct., Wilmette – asked if the location of the tanks could be flipped, to preserve the trees.

V. Adjournment

There being no further discussion, the Public Hearing was adjourned at 8:34 p.m.
